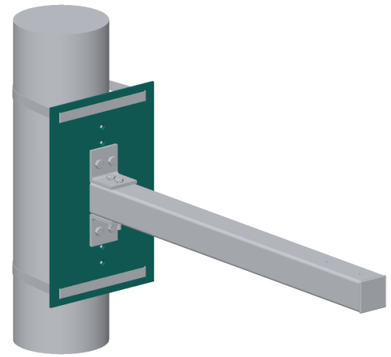
FRONT VIEW

Scale 1:2; looking at the front (along +Y)

RIGHT VIEW

Scale 1:2; looking at the right side (along -X)



WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Blank 160 x 250 mm, 3 mm aluminium. Front view is the face the arm butts against. Heights from the bottom edge; sideways from the centre.

Band slots 3 x 15 mm at 66 mm each side, centred 15 and 235 mm up: chain drill 3 mm and file square.

Bracket bolts 6.6 mm at 10 mm each side, 83 and 167 mm up.

V-saddle screws 4.5 mm on the centre line, 40, 60, 190 and 210 mm up; countersink from the front.

Deburr every hole; round the corners to about 2 mm.

Fit: V-saddles on the back; the arm tube butts the front at mid height, held by the two brackets; the bands cross the front above and below the brackets.

Check: offer the brackets up and look through the bolt holes.
